Girls' Championship rocks!

The ninth annual Texas Girls' Scholastic Championship drew 50 players to the new United High School facility in Laredo on Oct. 24. Here are this year's champions, with co-champions shown where applicable.

Primary	Sadia Qureshi	Alice
	Christalia Cardenas	Brownsville
Elementary:	Yvonne Trang	San Antonio
Middle School:	Georgia Olvera	Corpus Christi.
High School:	Angel Bohannon	Corpus Christi
	Ivana L Santos	Brownsville

Angel Bohannon won a \$500 scholarship prize and a choice of \$1,000 scholarships from Texas Tech and the University of Texas at Brownsville.

There were also three boys' sections, with 31 players.

Primary co-champion Christalia Cardenas (shown above) attends Paredes Elementary in Brownsville. According to proud chess dad Carlos Cardenas, her third round draw with defending champion Sadia Qureshi (who went on to tie for first) was considered the major upset of the event.

Criselda De Leon was the chief TD, with Lakshmana Viswanath Eddie Rios and Bulmaro Cruz assisting. The event was sponsored by the Laredo Chess Players' Association and hosted by Lucy Gutierrez.

Kings of Brownsville

Documentary chess film in the works

Clemente,

I hope this email finds you well in health and spirits. I wanted to touch base with you regarding a remarkable project that has become a reality. Danny Haro, a producer from California and his company, Higher Ground Entertainment, have committed to producing a documentary concerning where and how chess began in Brownsville, and to the heights that it has achieved, including the program at UTB. It is a great story, but there is more, the possibility of a movie based on the first year that Russell won its first of its seven consecutive state championships. The third part of this project would be to create an outreach program with all profits from the projects, which would include providing monies to communities, and opportunities for them to create and begin chess programs, not just in Texas, but all across the country.

I was hoping that maybe you could attend the event, I do not know if you are in Brownsville or perhaps in another city, but the link below has a digital invitation, for the fundraiser which will be held in Brownsville next week. If you scroll down you will be able to not only read all the details, but see a portion of the documentary in the form of a trailer. It is incredible.

If you can attend, please let me know so that I may inform Danny that you will be there as a representative from the TCA.

And Clemente, I am still amazed that I have sold the rights to my life's story in order to make the motion picture. I hope it becomes a reality.

Please hit the link below, and enjoy. *[Readers may link from the post at www.texaschess.org.]*

Clemente Rendon has committed to attending the fundraiser. On his motion, the TCA Board approved a \$1,000 donation to this worthy project. If it ever goes to "part 2" I vote for George Lopez to star in the movie! - SKA

Minutes of Fall 2009 TCA Meeting

held in Dallas, Sept. 27, 2009

Submitted by *Texas Knights* editor Selby Anderson

At 10:02 a.m. the meeting was called to order by TCA vice-president Lakshmana Viswanath. Other officers present were Barbara Swafford (treasurer), Selby Anderson (editor) and Peter Kappler (webmaster). [Note: TCA president Clemente Rendon was out of state, and secretary Rob Sturgeon was ill.]

Viswanath passed out copies of minutes from the previous TCA meeting (Spring 2009), and asked to waive the reading of the minutes. Sarkisian moved it so, Luis seconded. The motion *passed* by show of hands.

Treasurer's Report: Barb Swafford reported that she has been giving reports the *TK* editor on a semi-regular basis. She said there has not been much change since the statement published in the July-August issue. There have been more memberships and *TK* expense. She quoted from the August statement [which has since been published in the Sept-Oct 2009 *TK*.] Simpson noted that we have been spending more than we are bring in. Luis Salinas noted that the TCA will be bringing in revenue as organizer of a coming state scholastic.] Simpson moved to accept the Treasurer's report. Anderson seconded. The motion *passed*.

Next Selby Anderson read the election results. With 25 ballots received (one of which was invalid as it was dated 2008!) the results were as follows:

President: Clemente Rendon 20; Tom Crane 3, R. Sturgeon 1, F. Guadalupe 1.

Vice-President: Lakshmana Viswanath 23, Forrest Marler 1, Rob Sturgeon 1, Alexey Root 1.

Secretary: Rob Sturgeon 24, Tom Crane 1.

Treasurer: Barb Swafford 23, Rob Sturgeon 1.

Simpson moved to accept the election results, and Luis seconded. The motion *passed*.

Also under old business, Viswanath noted the bids already awarded for TCA events. Luis Salinas reported on major event bids awarded to date:

2010 Texas Grade: Francisco Guadalupe, to be held in Brownsville

2011 Texas Grade: Greater Fort Worth Chess Club

2011 Texas Scholastic: Dallas CC, to be held in Houston

Viswanath awarded Austin its bid on the 2010 Texas Team Championship, which had been uncontested. Peter Kappler noted that under the Bylaws such an uncontested bid should be awarded at the June 15 deadline rather than the Fall business meeting.

It was noted that we have no Southwest Open bids for next year.

Simpson, on a point of information, recapped the summer's bids contest between the Rio Grande Valley organizers (San Benito ISD) and the Dallas Chess Club. A Board vote was held on whether the two bids for the 2011(?) state scholastic were comparable. The Board decided by one vote that the bids were comparable; otherwise the bid would have gone to the mail ballot.

Luis Salinas moved that TCA award the 2013 Texas Scholastic to the San Benito Independent School District, which meant waiving the Bylaws procedure. There was no second for this motion. Therefore, SBISD would have to wait until 2011 (in accordance with Bylaws) to have its bid considered.

New Business

Under new business, the meeting turned to considering seven advance motions submitted by Luis Salinas.

It was noted that the Bylaws Committee should review these motions, as Motion 1 and 2 may be bylaws changes which have a higher criteria for passing.

Motion 1 - Rule clarification. Schools like the Texas Academy of Math and Science (TAMS) and similar schools such as UTB/TSC Mathematics and Science Academy in Brownsville are to be considered high schools for TCA events such as Regionals, Texas Grade and Collegiate, and The Texas Scholastic Championships.

Rationale: These schools are high schools. The students are still eligible for college scholarships and TAMS competes in High School Activities. The TAMS FAQ says graduates get an high school degree with some college credits. Note that TAMS is located on the University of North Texas Campus while the Brownsville program is located at the University of Texas At Brownsville.

The motion *passed*.

Motion 2 - Rules Clarification. Students with dual attendance such as a high school student taking college courses or an elementary student taking middle school courses shall be eligible for only one division. Once a player has played in the higher division in a TCA event, that player may never play in the lower division. Players who have played "up" before this rule change shall be grandfathered and not be limited to playing in the higher division unless they play up again. (Example: A high student taking college classes should play in High School but if this student plays in a TCA Collegiate section, then this particular high school student may not play in a TCA event as a high school player.)

The motion *passed* unanimously.

Motion 3. Motion 2 goes into effect immediately. *Passed unanimously.*

Motion 4. The World Youth participants shall be awarded a stipend after they write an article for *Texas Knights* and annotate a couple of games. The TCA board will determine the amount of the stipend. Note that if a participant has financial difficulties, the stipend may be awarded before the article for *Texas Knights*.

Rationale: I make this motion every year, but I now think this should be automatic.

The motion *passed* unanimously.

Motion 5. The Pan American Youth medalists who earn a personal right to compete in the next Pan American Youth by virtue of winning a medal shall be awarded a stipend after they write an article for *Texas Knights* and annotate a couple of games. The TCA board shall determine the amount of the stipend.

The motion *passed* unanimously.

Motion 6. The TCA awards the Dallas Chess Club \$1,200 to run the Texas Masters. The tentative weekend is Martin Luther King weekend in 2010 at UTD.

Discussion: Salinas noted that this is \$200 higher than for previous Texas Masters events, but that FIDE fees and other charges have gone up.

The motion *passed*, with one abstention.

Motion 7 - Bylaws change. The Texas Chess Association will set its voting age to at least 16 years old. September 1st will be used as the day to determine age. If this passes, the Bylaws Committee will come up with the wording to change the bylaws.

Rationale: Several TCA members believe that this has already passed, but I am making the motion anew as it does not look like the change has been made or there is a belief that this did not pass.

Discussion: The 2007 minutes stated that the motion did not pass with the required 2/3 majority..

The motion *passed* unanimously.

Motions from the Floor

San Benito ISD spokesman Jack Garcia moved that the 2010 Southwest Open and 2011 Texas Scholastic be awarded to the SBISD. Franc Guadalupe seconded.

Luis Salinas (speaking for the Dallas Chess Club) expressed concerned there is no Southwest Open bid for 2010. He said he would be willing to give up the 2011 bid if San Benito would hold the 2010 Southwest Open.

Michael Simpson noted that this motion would undo a bid awarded at the present meeting, which would require a two-thirds vote. There being no actual bid yet received for 2013, DCC could only give up the 2011 bid.

Salinas said the DCC gave him permission to trade 2011 for 2013, but not to give it away.

The motion *failed* 6-1, with 5 abstaining.

Michael Simpson moved to amend TCA Bylaws Article IX Section 3.E (rotation rules for major tournaments), thus: *change "city" to "organizer"* Sarkisian seconded.

Simpson then spoke against his motion, saying city rotation was the original idea behind this bylaw. Pat Ready spoke in favor of the change, noting that freedom to choose the city gives organizers a safeguard against contingencies such as hurricanes. Franc Guadalupe answered that such possibilities can be addressed *ad hoc* by e-mail. Viswanath said that we need to have *both* city and organizer in the Bylaws. Lori Balkum asked, what if TCA received three bids, of which two organizers are in the same city? Simpson said organizers' experience would be a factor when weighing multiple affiliates in the same city. He added that non-comparable bids would go to ballot, so the scenario Balkum brought up was not a problem. Luis Salinas noted that some bids have been awarded with the city to be determined.

The motion *failed* by a 2 to 9 vote.

Luis Salinas moved that the Board draw up a motion for its 2010 spring meeting on a way to appoint its delegates to USCF. Mike Simpson seconded. Franc Guadalupe said there has been a problem in selecting delegates who will actually attend the USCF meeting. Viswanath said we need criteria for selection. Salinas suggested that the vote take place either in September at the Fall TCA meeting (where there may be an idea of who will go to the US Open) or in the summer mail ballot before that meeting.

The motion *passed* unanimously.

Viswanath asked Jack Garcia whether San Benito ISD is interested in holding the 2013 Scholastic. Garcia said the school board would have to consider it. The bid, noted Viswanath, is not due until 2011.

Viswanath noted that the 2010 Southwest Open bid overdue, and is likely to be awarded to the first bidder. Mike Simpson added that TCA would be obliged to run the event if no bids were received.

Peter Kappler observed the trend of poor turnouts at the Texas State/Amateur Championship. One factor he noted is that school is out, and many foreign college players have gone home. He said that over the last three years this event has had just two players rated over 2400, compared to 23 players in the Southwest Open for the same period. He said the state championship was longer prestigious, and queried whether we should move the date. Franc Guadalupe offered that we could make it a class tournament. *[Note: The Texas Class Championship is already an official TCA event, although it has not been held in some time.]* Kappler replied that Championship section is the one that suffers poor attendance, not the Amateur. Franc Guadalupe countered, why have a closed Championship section?

Michael Simpson moved that the Board create a new committee to come up with ways to increase participation by top players in the state championship. Franc Guadalupe seconded. The motion passed unanimously.

Lori Balkum moved to adjourn. Luis Salinas seconded, and on a voice vote the meeting was ended at 11:29 a.m.

Beginners' events build USCF membership

About 16 to 17 years ago, a group of volunteers came together as an organization dedicated to promoting scholastic chess in the coastal bend area. This group was backed by the Optimist Club of Corpus Christi, Texas. It was my privilege to have sat in on those meetings. Over the years, this organization has come to realize that one of the biggest financial barriers to recruiting new chess players was the USCF membership fees. Therefore, the club came up with a "Beginners Tournament", and has hosted one every year at the start of the scholastic year. This tournament allows the club members to work one on one with new incoming tournament players as well as preparing their parents in the way of tournament chess.

This tournament also allows the club to pay for the players' registrations to USCF and automatically signs the players into the next upcoming tournament. In this manner, this club helps underprivileged children to participate in scholastic chess tournaments. Therefore, scholastic chess will not become a game for an elite group. Let's face it, entry fees, USCF memberships, food, traveling expenses; all take a bite out of a parent's wallet. Some parents have more than one child participating. Now multiply that expense by several weeks and the numbers quickly add up for the parents and coaches.

This past weekend [Sept. 19] it was my honor to help on this years "Beginners Tournament", and I had the opportunity to work one on one with these children, it was very rewarding. I was excited to see their enthusiasm while they played. Some of them would not have even considered participating because of the cost.

The name of this organization is the Optimist Coastal Bend Chess Federation. However, they are not the only organization implementing this practice of helping kids in Region VII. Mr. Dan DeLeon and his wife Criselda own and operate South Texas Chess Center of Corpus Christi also host a tournament to help players pay for their membership fees. Laredo Chessplayers Association also does the same. These organizations also help the school clubs host tournaments as fund raisers designed to cover the costs for their members. I wish to thank all of you wonderful volunteers in Region VII and throughout the state who give of their time and funds to provide a means for the children to participate in scholastic chess instead of having idle hands and worse "idle minds". Thank you all. P.S. If I left anyone out, I apologize. - *Eddie Rios.*

Dear Texas Chess Players:

Help us make it two in a row after last year's 32.5-21.5 defeat of the Oklahoma squad led by Jim and Frank Berry. Date: Apr. 18 (Sun.), 2 rd. G/60, 30 sec increment. I realize it is early, but e-mail me if you have an interest.

IM Antal wins big haul at 75th Southwest Open

By NTD Francisco Guadalupe

The 75th Annual Southwest Open, held at the DFW Marriott Airport South, Fort Worth, Texas, had 160 players in attendance and the strongest field in many years, if not ever, with two GMs and six IMs leading the way. The organizers also held a one-day scholastic side event that drew 81 players. The event was sponsored by the Texas Chess Association and organized by Luis Salinas and Barbara Swafford from the Dallas Chess Club. Lori Balkum and Binny Nanavati directed the scholastic tournament and Lori assisted me in the main event.

In the Open Division, IM Gergely Antal continued his hot streak and took home the \$1,500 first prize as the outright winner! Just last month in Indianapolis, Gergely finished in a tie for seventh place at the U.S. Open and also won the Tournament of College Champions. The fifth-seeded Antal must have felt like he was back in Indianapolis at the collegiate event, as the top eleven seeds were players from the “big three” Texas college chess programs: UT-Dallas, UT-Brownsville and Texas Tech. This event, however, was much stronger than the collegiate championship in Indianapolis. It would have had quite a few more collegiate players, but several of the UTB players went to a tournament in Mexico while some of the UTD students played in Oklahoma.

Although there were a few quick draws among the top players, the last round was highly contested. On Board One, the game between IM Davorin Kuljasevic from Tech and GM Timur Gareev from UTB did end in a draw, but it was a hard-fought game. A Bishop-Rook-Pawn ending for both sides forced the outcome. This allowed Davorin to take home the \$800 second place

prize while while Timur had to settle for only one-tenth of that for his tie for third. Antal, also from Texas Tech, took advantage of the draw on the top board, and defeated John Bryant from UTD on Board two. On Board Three, however, UTD reversed the tables on Tech as IM Julio Sadorra defeated the second-seeded IM Gabor Papp. This year’s state champion IM Daniel Fernandez from UTB must have been a little bit surprised as he sat across nine-year-old expert Tommy He on Board Four! Tommy, the top 9-year old in the country, had a great event and raised his rating by 45 points to 2110. Daniel, however, quickly overcame his shock and went on to beat his young opponent to tie for third with Gareev, Sadorra, GM Amon Simutowe and IM Daniel Ludwig, the last two also from UTD. Amon and Daniel had to do some college work, so they took last round byes.

In the Reserve Division (U2000), Phung Nguyen finished with a perfect 7-0 and pocketed the \$1,000 first place prize. Leo Bonnell and Ruifeng Li, the top 7-year old in the Nation, tied for second place with 5.5 points. Leo was awarded the \$500 second prize while Ruifeng earned \$600 as the top Class B while raising his rating to 1861! In the Novice Division (U1400), we had a three-way tie between Adam Drake, Anthony Nguyen and Frank Rilling with 5.5 points and each earning \$433.

The scholastic event had two divisions. We had a three-way tie in the K-12 Championship between Kevin Li, Elizabeth Ukoli and Venkat Tejah Kotta. David Howe won the K-12 U750.

I tried this against Fernandez in 2007. (I got a good game but lost from time pressure errors.). It enjoys a better reputation against 6...g6, but of course I feel vindicated seeing it played by a 2500 player.

I wonder how Antal would play against the minimalist 7...Nf6 8.f4 Be7 - launch a full tilt pawn storm? **7...h6 8.Nh3 g6 9.f4 Nge7 10.Be3 Bg7 11.c3 Rd8 12.Nd2 0-0 13.Nf3 b6 14.Nf2 Kh7 15.d4 f5**

65.f5!

It might seem ridiculous to call this the “decisive breakthrough” after such a long buildup, but that could be the truth of the matter.

Black doesn't want to clear e4 with 65...gxf5 66.exf5, as Nd2-e4 will take a dominating position, then Kf3 and g4 create an outside passer.

However, 65...Nf8 may offer salvation. White can jockey for the same chance he gets in the game, with Nd2-f1-e3 and g3-g4, but Black is better placed to deal with it: 65...Nf8 66.fxg6 (66.Nd2 g5=) 66...Nxc6 67.Nd2 Nd7 68.Kf3 Kg6 69.Nf1 f5=.

65...Kf7 66.fxg6+ Kxg6 67.Nd2 Kh6

67...f5 68.exf5+ Kxf5 69.Ne4+ is not a serious option.

Haney wins Octoberfest Benefit

The Octoberfest Benefit tournament (San Antonio, Oct. 24-25) drew a somewhat disappointing 32 players. Thanks to some donations, the tournament tentatively made \$120 for the SACC sponsors' benefit fund for area scholastic clubs.

Paul Haney of Corpus Christi won the 14-player Open section with

4-0, defeating Titus Shanks in the last round. Ernesto Malazarte and Ju Hyung Ahn (3-1) shared second and U2100 prizes. Shanks tied with Martin Gordon for the U1900 prize (2.5).

In the Reserve section Jonathan Rea (rated 1255) scored two upsets of 436 and 387 points on his way to sharing first place in with Raymond

Grillo, each with 3.5. Charles Davis was top U1700 with 3-1.

Fernando Mendoza and David Pacheco shared the U1500 prize with 2-2, and tying that score was top U1300/unrated Ross Johnson.

The tournament was directed by J.P. Hyltin for the San Antonio Chess Club.

A local high school rivalry between two of San Antonio's most upwardly mobile players (both regulars at out Wednesday night tournaments) continues to produce sharp, creative

chess. Shanks, who has previously played From's Gambit (1.f4 e5) as Black against Nathanael Lozano, tries an interesting gambit for White against the Dutch Defense:
